## About me

I am a front-end web developer with two years of experience in HTML, CSS, Bootstrap, JavaScript, and React.js. I specialize in creating sleek, responsive websites that enhance user experience and performance. I also utilize AI tools to streamline development processes, ensuring high-quality results while staying updated on the latest web development trends.

## Projects

### Primebazar

Sep 2024 - Oct 2024

#### Full Stack E-commerce Website

Prime Bazaar is a full-stack e-commerce website designed to provide a seamless shopping experience for customers while offering administrative capabilities to manage products, orders. The application is built using advanced technologies, ensuring both performance and scalability..

### Restaurant Website

Jun 2024 - July 2024

#### Front - End Website

A sleek, responsive landing page for a restaurant, designed to showcase its offerings and ambiance. The website features an easy-to-use reservation form, allowing customers to book tables directly. The design emphasizes simplicity and elegance, ensuring the restaurant's brand and menu are the focal points while maintaining optimal performance on all devices.
